Prepared By (Communications Unit Leader) <b>Mike Horst, LFD COML, Cell 661-645-4254</b>					Incident Location <b>LAC / LFD / VNC MTZ</b>						
					County	State <b>CA</b>	Latitude	N	Longitude	W	
<p>The convention calls for frequency lists to show four digits after the decimal place. The letter "U", "N", or "W" in the deviation (Dev) column reflects whether the frequency is ultranarrow, narrow, or wide band. Mode refers to either "A" indicating Analog, "D" indicating Digital (e.g. Project 25) or "M" indicating Mixed Mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeaters (and depending on use, base stations) must be programmed with the Rx and Tx reversed.</p>
